Education

University of Maryland, College Park

Expected Graduation: May 2027

Bachelor of Computer Science, Minor in Statistics

College Park, MD

- Courses: Algorithms, Organization of Programming Languages, Introduction to Computer Systems, Discrete Structures, Linear Algebra, Object-Oriented Programming I, Object-Oriented Programming II, Calculus I, Calculus II, Applied Probability and Statistics

Work Experience

Lead Engineer | HealthTech Startup|

January 2025 - August 2025

- Built a gamified wellness platform by combining behavioral science with modern frameworks, helping users stay motivated to maintain healthy habits
- Designed and scaled backend architecture using **Django** and **PostgreSQL**, enabling efficient data modeling, user tracking, and API integration for an initial user base

Software Engineering Intern | NIST

May 2024- August 2024

- Increased **reinforcement learning model** efficiency by 20% through designing multiple Julia training functions, leading to stronger agent decision-making
- Improved interpretability of models by generating graphical representations of agent behavior with **matplotlib**, giving researchers clearer insights into agent performance
- Enhanced workflow organization by creating **JSON**-based data handling functions, streamlining how training data was read and stored

Projects

Fit-GPT | github.com/Natanel-solomonov/Fit-GPT-Project

MongoDB| Express | Node | React

- Developed a **full-stack** AI fitness assistant using MERN stack and REST APIs, allowing users to create custom fitness plans and access video-guided answers
- Secured user data by implementing **JWT authentication**, ensuring protected access post-login and signup
- Enabled persistent storage of user plans and info via **MongoDB**, providing reliable data management for long-term engagement

Personal Portfolio || natanel-solomonov-personal-website.netlify.app/

React

- Built a professional portfolio website using **React**, giving recruiters and peers easy access to projects and achievements.

Leadership/Extracurricular

App Development Club| General Dynamics

September 2024 - January 2025

Frontend Engineer

College Park, MD

- Contributed to a mobile Flutter app for Praxis engineering by developing interactive UI screens with Dart, improving user experience, and functionality
- Strengthened app responsiveness by collaborating with backend developers to integrate API calls, ensuring smooth data-driven features

Sigma Phi Epsilon Fraternity

February 2024- Present

Balanced Man Scholarship Chair/Member

College Park, MD

- Led the Balanced Man Scholarship program by coordinating candidate interviews and banquet planning, fostering community and academic recognition

Technical Skills

Languages: Java, Python, JavaScript, TypeScript, HTML5, CSS, Julia, C, Ocaml, Swift,

Developer Tools: Postman, Git, GitHub, Unix

Libraries/Frameworks: Node.js, Express.js, React.js, Next.js, matplotlib, BeautifulSoup, MongoDB, Flutter, Django, PostgreSQL
